HARIHAR MUNICIPALITY.

Building bye-laws framed by the Municipal Council of Harihar Town under clauses (*p*) (*q*) (*r*) and (*u*) of Sub-section 1 of Section 48 of the Municipal Regulation sanctioned by Government in their order No. 10745—Ml. 53-18-4, dated 20th February 1919.

STRUCTURES AND BUILDINGS.

1. *Mode of giving notice of intention to build.*—Every person intending to erect or re-erect any building shall give notice in writing of his intention to the President.

DOCUMENTS TO ACCOMPANY THE NOTICE.

Every such person shall submit with such notice as aforesaid, a site plan of the land drawn to scale of not less than 50′ to 1″ showing (*a*) the position of the building and appurtenant out-buildings to be erected on the land, (*b*) the area to be occupied by the building and out-buildings on the land, (*c*) the names (if any) or description of the adjacent roads, streets, bridges, culverts or buildings and (*d*) the number of the plot and the name or number of the block and street or road in which the land is situated.

Provided that if the applicant satisfy the President that the building will be less than Rs. 500 in value, it shall be sufficient for the site plan to show without scale to the satisfaction of the President. The size of the building and its position on the land together with the position of the land with reference to the adjacent buildings or lands.

(ii) When the land belongs to the Municipal Council, every such person shall submit with such notice as aforesaid, a copy of the document or documents authorising him to occupy the land and on the requisition of the President the original document or documents also, if he desired to inspect it or them.

(iii) (*a*) Every such person shall submit with such notice as aforesaid, plans, sections and elevations in duplicate drawn to a scale of not less than 10′ to an inch, showing the levels at which the foundation and the lowest floor or plinth are proposed to be laid with reference to the crown level of the adjacent roads or streets and the level of the site on which the house is to be built.

(*b*) The aforesaid plans and section shall further show the position of the ine or the frontage of the proposed building with reference to the block line of the side drain wall or if there is no side drain wall, with reference to the central line of the street or road which the building faces. Provided that if the applicant satisfies the President that the building will be less than Rs. 250, in value, it will be sufficient to show in writing levels at which the foundations and the lowest floor are proposed to be laid.

(iv) Every such person shall, when required by the President, submit with such notice aforesaid specifications of the work intended to be constructed and the materials to be used for the foundation, walls and roofs, respectively.

2. *Level of plinth.*—Every person who shall erect a new domestic building shall cause the same to be built with a plinth not below such level as may be fixed by the President or under his authority, the Medical Officer, or Sanitary Inspector.

3. *Plans and other documents to be furnished in duplicate.*—Every such person who under the provisions of Sections 91, 96 of the Municipal Regulation may be required to furnish to the President any plan or other document shall furnish duplicate copies of every such plan or document which he may be so called upon to furnish and one of such duplicate plans shall be returned to the person signed by the President signifying his approval of the plan or otherwise.

4. *Foundations of walls.*—Every person who shall erect a new building shall cause the footings of every wall and every post or posts of the ground floor of such building to rest on the solid ground or upon a sufficient thickness of concrete or upon some solid and sufficient sub-structure as a foundation. Provided that where solid rock is met with at or near the surface of the site of such buildings, *i.e.*, within 3 feet of the level of the base of the wall the footings may be omitted, if the surface of the rock be properly cleaned and stepped or jagged to receive the first course of masonry.

5. *Ventilation of rooms.*—He shall so construct every such room that the same shall be ventilated by means of doors or windows, which open directly into the external air and have an aggregate opening equal to not less than one-tenth of the floor space or one-twelfth of the cubic space of the superficial area of that side of the room which faces an open space.

6. *Open space around dwelling houses.*—Every person who shall erect a new dwelling house shall so construct such dwelling house that the whole or at least one side of every room thereof, intended to be inhabited shall either be an external wall abutting on the open air or about on an interior open space having an area equal to not less than one-tenth of the aggregate floor area of all the rooms abutting thereon and being not less in any direction than 6′ across.

He shall provide between at least two of the external walls and the boundary line of the owner's premises except where either of such walls faces a street of not less than 15 feet in width, an opens space exceeding throughout the entire length of such wall at least 2′ wide. He shall cause every interior open space required by this bye-law to be constructed and kept free from any erection thereon and open to the sky and no cornice, roof, or weather shade shall project or over-hang the open space more than 6″ or any side thereof, provided that such connecting passages may be allowed as to the President shall seem necessary, such passages being open on one or more sides.

7. *Privy Accommodation.*—Every person who shall erect a new building shall, in connection with such building, construct such number of privies, as shall be prescribed by the President in each case.

8. *Site of privies.*—A person who shall construct a new privy whether in connection with a new building or not, shall construct such privy upon such site or in such position only as shall be approved by the President.

9. *Proximity of privies to water-supply.*—A person who shall construct a privy in connection with a building shall not, without the written permission of the President construct such privy within the distance of 20 feet from any well, spring, tank or stream of water used or likely to be used by man for drinking or domestic purposes or for manufacturing drinks for the use of man or otherwise in such a position as to render any such water liable to pollution.

10. *Air space round privies.*—Every person who shall construct a privy in connection with a building shall so construct the same as to have an external air space of not less than 3 feet in width and open to the sky surrounding such privy on every side thereof except the entrance side where any gallery or passage communicating with such privy shall be not less than 2 feet in width and shall be open to the external air on both sides.

11. *Ventilation of privies.*—Every person who shall construct a privy in connection with a building shall provide such privy with a sufficient opening or with sufficient openings for ventilation to the satisfaction of the President and such opening or openings shall be as near to the top as practicable and shall communicate directly with the external air.

12. *No room to be erected over a privy* :—No person shall construct over a privy whether old or new any room or structure of any description except another privy or bathing place or bath room.

13. (i) *Contravention of Bye-laws to be amended:*—In every case where a person who shall erect a building shall, at any reasonable time during the progress or after completion of the erection of such building, receive from the President notice in writing specifying any matters in respect of which the erection of such building may be in contravention of any bye-law relating to new buildings and requiring such person within a reasonable time, which shall be specified in such notice, to cause anything done or omitted to be rectified or done, such person shall within the time specified in such notice, comply with the several requirements thereof so far as such requirements relate to matters in respect of which the erection of such building may be in contravention of any such bye-law.

(ii) *Notice of completion of amendments.*—Such person with a reasonable time after the completion of work which may have been executed in accordance with any such requirement shall deliver or send or cause to be delivered or sent to the President at his office, notice in writing of the completion of such work.

(iii) *Notice of completion of buildings* :—Every person who shall erect a building shall within one month after the completion of the erection of such building deliver or send or cause to be delivered or sent to the President at his office, notice in writing of the completion of the erection of such building.

14. *Penalties.*—Every person who shall commit any breach of any of the foregoing bye-laws shall be punishable with a fine which may extend to Rs. 100.

15. *Evidence of exercise of duties powers or functions.*—Whenever under any of the foregoing bye-laws the doing or omitting of doing a thing or the validity of anything depends upon the sanction, permission, approval order, direction, requisition, notice or satisfaction of the President, a written document signed by the President or by any Municipal officer to whom the President may have delegated his powers, duties or functions in that behalf purporting to convey or set forth his sanction, permission, approval, order, direction, requisition, notice or satisfaction shall be sufficient *prima facie* evidence of such sanction, permission approval, order, direction, requisition, notice or satisfaction. In all cases in which under these bye-laws dimensions are prescribed, the President shall have power on application being made to that end to permit of such dimensions being modified.
